

**Evans Nicholson** for anti-corruption.  
Vote for Justice and Healthcare.

Raised in Maple Ridge BC. A former high school teacher now employed with Federal Corrections.

As a candidate in this Federal Election I am challenging corruption and every Canadian MP to consider their stance for justice asking if we are required to tolerate corporate, political and judicial corruption? Is there even one reason why the people of Canada haven't received the same laws enacted by British Parliament to protect their people from Masonic patronage in the courts, business and every level of government?

London, England

“Judges, magistrates, police officers, crown prosecutors, probation officers and prison staff will in future have to declare whether they're freemasons,” Jack Straw, the Home Secretary announced Tuesday. – The Daily Telegraph, Feb. 16, 1998

AT LAST a brave stance against the sinister influence of Freemasonry in Britain. Chris Mullen MP deserves praise for doggedly pursuing this elusive, secretive sinister society. - Daily Mail March 2, 1998

**Most** Masons are civic-minded people with a desire to help others.

**Many** are active in the church.

What are the **secrets** that Masons in the lower degrees don't know?

Is The Great Architect Of The Universe, the god of Freemasonry, **Lucifer**?

God **loves** Masons but wants them to be 'set free'.

Who are the leaders we rely on to confront corruption when Masons are being left without a witness or a challenge to the dark realities involved in their various Masonic affiliations. We need leaders committed to justice, without party constraint.

Our health care system, our heritage, is being sold off to the Pharmaceutical and corporate conglomerates. Health care is now big business. Do we want corporations telling us who can afford health care? Do we want profits dictating the level of care for special needs children, the elderly and eventually every Canadian? **Why is health care for sale?**
